

CITY OF SAN JOSE

BUILDING DIVISION POLICY

Policy on Reciprocal Approval of Field Tested Equipment among Silicon Valley Jurisdictions

Policy No.: NEC 110-2-93
Effective Date: Sept. 25, 1996

General and Non-Complex Equipment:

Refer to: "Policy on Procedures for Approval of Non-Listed Electrical Equipment" under the categories of General Equipment and Non-Complex Equipment.

Complex and/or Unique Equipment:

Complex and/or unique equipment listed and/or evaluated by a nationally recognized testing agency, an approved third party testing agency, or an approved licensed engineering firm in one jurisdiction may be relocated to another jurisdiction or site, subject to the prior approval of Building Official, provided:

- a. The installation and use are substantially the same
- b. The connection and overcurrent protection from the power supply to the equipment comply with current requirements
- c. The listing or report is made available to the jurisdiction having authority

Existing operational non-listed equipment being relocated to a new jurisdiction or site must be evaluated as required of any non-listed, complex, and/or unique equipment as specified in the "Policy on Procedures for Approval of Non-Listed Electrical Equipment".

Note: Manufacturers self-certification of any equipment shall not be acceptable.

Adopted and Approved by:
Silicon Valley Uniform Code
Interpretation Program on 9/25/96

Approved by:

Chief Building Official
